

## BELAIR JEAN BONYTHON KINDERGARTEN NUT POLICY

**Belair Jean Bonython Kindergarten is a nut-free kindergarten.  
What does this mean?**

No peanuts / nuts are allowed at all in the kindy.

No products that may have been on the same production line as peanut products are allowed.

No peanut butter sandwiches, peanut butter snack dips, nutella, muesli bars or nuts of any description.

**How can I tell what foods have peanuts + / or traces of peanuts in them ?**

Look at the contents / nutrition label of the product. A few of the label examples follow:

- "This product is manufactured in a facility where nut based products are also produced and therefore may contain traces of peanuts / tree nuts"
- "may contain traces of peanut +/- or other nuts"
- "may contain traces of nut, egg and seed"

**Must I be that diligent in checking products?**

**YES.** Anaphylaxis can be a serious condition and can be fatal if the correct prevention and correct treatment of the allergy does not occur.

Please read the information provided and ask the staff if you have any concerns. Your support in implementing this policy will be appreciated.

Thank you.
